1. **Revision History**

Issued on	Revision history
October 24, 2022	First edition

2. Check your network environment

To connect SOS via your network, The following ports is required to be opened Port No. : 443/TCP and Port No. : 8883/TCP *Both use outbound only

<Connect method 1>

connect via firewall both of Port No.443 and 8883

<Connect method 2>

Port No.443 connect via proxy server. Port No.8883 connect via firewall.

3. About SOS diagnostic tool

A tool to quickly diagnose customer's network environment is mounted in the printer. Use the tool for the network diagnosis. (Depending on the firmware version in use, the tool may not be available for use.)

See "SOS diagnostic tool" for the detail.

4. For adding printers to SATO Online Services

To connect printers to SATO Online Services, Set the following printer setting it is necessary to change the network settings of your printers.

•DNS

required

- Proxy server required if it connect via proxy server.
- •NTP optional

And it is also necessary to prepare following information.

- 1. SOS account (ID,PW)
- 2. Definition of unique printer name and it's location name.

If Multiple locations are existing, we recommend registering location settings beforehand.

*It describes only for SOS setting. Other network setting(IP, Subnet, Gateway and WLAN setting) is referred to printer manual.

https://www.manual.sato-global.com/printer/s8nx/en/main/index.html

4-1. **DNS settings**

Show setting menu of printer. Settings => Interface => Network => Settings => LAN => IPv4 <Example>

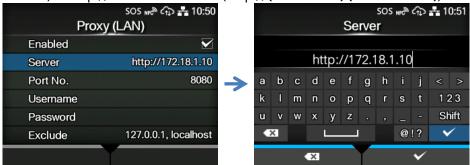

Mode IP Address Netmask	Static 172.25.47.19 255.255.0.0
Gateway	172.25.1.240
DNS	172.18.1.52,172.18.1.53,172.30.5.23
* Three DNS address	s can be set

* DNS is not required if DHCP is set.

	sos 🔊 🎝 💤 10:47
IP∖	/4 (LAN)
Mode	Static
IP Address	172.23.47.18
Netmask	255.255.0.0
Gateway	172.23.1.240
DNS	172.18.1.52, 172.18.1.53

4-2. Set Proxy settings. (Mandatory if proxy server is used)

- (1) yShow proxy setting screen of product's menu
 Settings => Interface => Network => Settings => LAN(or Wi-Fi) => Proxy
- Set proxy server value(IP address and port number) in the Server.
 ex.) http://172.18.1.10:8080 (http://{IP Address}:{Port number})

③ Set the Username and Password respectively. If the username and password are not available in the proxy server, this setting is not required.

Check exclude setting contains [127.0.0.1, localhost].
 [127.0.0.1, localhost] are static value. Leave this setting and no change.
 And if there is no value set on this menu, please enter 127.0.0.1, localhost manually

(5) Check the checkbox to enable the valid item.

Port diagnostic	

5-2. **Printer serial number is shown**

• Printer serial number is needed to login to SATO Online Services and register your printer.

5-3. **PIN code input screen is shown**

When this screen is shown, acquire a PIN code, following the below step.

Following two steps can be used. Choose the applicable one depending on registration method.

Register via smartphone=> register your printer via SOS Smart App

Register via PC=> register your printer via PC

6. SOS diagnostic tool

A tool to quickly diagnose customer's network environment. The diagnosis is performed by referring to the network settings selected in the printer.

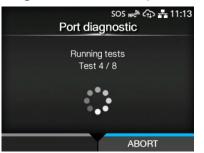

Ensure to check the following before using the tool:

- \diamond The printer is connected to the network.
- ♦ All the network settings to connect SOS are completed.
- How to use

Select "Port diagnosis" under Settings>Network settings>Network>Services>Online services.

When the confirmation screen appears, press ENTER key.

Diagnosis starts and please hold.

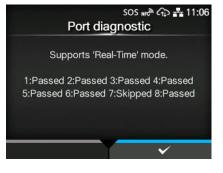

Diagnosis results will be shown when the diagnosis is done. Check the results and press ENTER key.

Diagnosis results

Diagnosis results will be shown as follows:

[Results] (Light mode)

Passed: Connection is OK Failed: Connection is NG Connecting: Connection ongoing Timeout: Network timeout Aborted: The process is aborted Skipped: The process is skipped

*Even when all results are okay, the ports need to be checked as they may not support TLS1.2.

Diagnostic results description

The diagnosis consists of eight test items and following test items are performed in order.

Test numbe r	Test item	Connection host	Connectio n port	NG or timeout message
1	Communicatio n with gateway	Default gateway	-	No ping response from gateway. Due to physical disconnection such as cable is pulled out, or wrong network settings.
2	Host name check	api.sato-sos.com	-	Host name cannot be converted to IP address. Wrong DNS settings.
3	Connection with SOS cloud service	api.github.com	443	Failed to acquire a file from api.github.com. The access may be blocked by firewall. Contact IT Dept. and provide host name and port number to enable the use of this function.
4		codeload.github.com	443	Failed to acquire a file from codeload.github.com. The access may be blocked by firewall. Contact IT Dept. and provide host name and port number to enable the use of this function.
5		api.sato-sos.com	443	Failed to acquire a file from api.sato-sos.com. The access may be blocked by firewall. Contact IT Dept. and provide host name and port number to enable the use of this function.
6		s3-ap-northeast-1.amazonaws.com	443	Failed to acquire a file from s3-ap-northeast- 1.amazonaws.com. The access may be blocked by firewall. Contact IT Dept. and provide host name and port number to enable the use of this function.
7	Socket connection with SOS network	aih-stsos-pro-001.azure-devices.net	443	The port is not open. The access may be blocked by firewall. Contact IT Dept. and provide host name and port number to enable the use of this function.
8		aih-stsos-pro-001.azure-devices.net	443 + 8883	

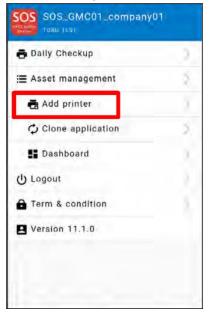

7. Register your printer via SOS Smart App

7-1. Login to SOS Smart App

·Login to SOS Smart App and tap [Add printer].

•Tap [Real-time(Light)] in the printer registration screen.

Add printe	r
