

Printer registration manual-On-demand (NFC) for PW208NX

Before using SOS, SOS account is necessary.

Please contact nearest SATO local office or our contracted business partners.

Connect a printer to SOS

Push the power button on the control panel until the LED lights up in blue and turn on the printer. An initial icon **sos** is displayed at the top of the printer screen, but it is not yet connected with SATO. Please make the following settings to link the printer and use account.

*Important"

The printer firmware is old, SOS is not supported. And SOS icon is not displayed. Firmware version 3.2.3-r2 or newer version is required.

1. Printer setting for SOS

Turn on the printer and go to "Online Service" to change SOS mode to "Light"

When you press and hold the \parallel / \rightarrow button and \square / \rightarrow button simultaneously for 2 seconds or more in the offline (stop) screen,

Select [Communication setting] \Rightarrow [Online service] \Rightarrow [SOS mode] from the printer menu and set the SOS mode to "Light"

2. Login to SOS Smart app select [Add printer] \rightarrow [On-demand NFC]

Only for NFC-enabled devices/smartphones running the Android OS or NFC must be enabled on the device/smartphone

Touch the NFC of the printer with the Real-time Light displayed. NFC is installed in the red circle part of the figure below.
